

Subayai e-Security™ is fraud prevention for commercial web-applications.

Built by security professionals that protect the largest banks and retailers in the world.

- ♦ Malware Evasion
- ♦ Secure Sessions
- ♦ Configurable Rules/Actions
- ♦ Multi-Factor Authentication
- ♦ Industrial Grade Encryption
- ♦ Real Time Services
- ♦ Extensible Framework
- ♦ Zero Code Integration

Most web-applications have little to no security beyond user/password controls.

See how Subayai e-Security can secure your site.

Call us to arrange a free demonstration.

Subayai e-Security can be integrated with your J2EE web-application in minutes. For more information, visit our site at: <http://www.subayai.com>
